PROJECTS

Enterprise Business Solutions (EBS) - ERP Software & Mobile App, Cogent IT

Project Experience

Tech Stack: Java • Spring Boot • Angular • Android SDK • MySQL • Bootstrap

Worked as a Full-Stack & Mobile App Developer on an ERP solution covering financial, inventory, and operational workflows for business users.

- Backend & APIs: Built secure Spring Boot REST APIs to support ERP workflows and real-time data access.
- Web & Mobile: Developed Angular web interfaces and a native Android extension integrated with backend APIs.
- Business Modules: Contributed to finance, inventory, and operational modules aligned with accounting requirements.

Personal Portfolio Website

[GitHub](#) | [Live Demo](#)

Tech Stack: HTML • CSS • JavaScript

Designed and developed a responsive personal portfolio website to showcase profile, projects, skills, education, certifications, and contact details.

- Built clean responsive layouts optimized for mobile and desktop viewing.
- Added project cards, skill highlights, contact links, smooth navigation, and a downloadable CV button.

Website-for-ACE Accounting Firm, Cogent IT

Tech Stack: HTML • CSS • JavaScript

Developed a frontend web project for an accounting firm, focusing on structured content, responsive layout, and clear presentation of professional information.

- Practiced frontend engineering using semantic HTML, custom CSS, and JavaScript interactions.
